The following have been added by full text:

BIDDING INSTRUCTIONS

OFFLOADING, PROCESSING, AND DISPOSAL SITES INFORMATION (TO BE PROVIDED BY BIDDERS):

Name of Site(s) _____

Name of POC(s) _____

Address of Site(s) _____

Telephone Number(s) _____

NOTES FOR PRICE SCHEDULE:

NOTE 1: Bidders are required to bid on all items on the Price Schedule or their bid will be rejected.

NOTE 2: The low bidder for the purpose of award will be the conforming responsible bidder offering the lowest amount for the total bid price of the Basic Work (items 0001AA and 0002) and all Options (items 0003 thru 0017).

NOTE 3: Any bid that is materially unbalanced may be rejected. An unbalanced bid is one, which is based on price significantly less than the cost for some work and prices are significantly overstated for other work.

NOTE 3a. Additional description to CLIN 0002 through CLIN 0017 is as follows: "Removal of material except ledge rock lying above the plane of minus 35 feet below mean low water with 2 feet allowable overdepth from the Federal Navigation Channel as shown on the contract drawings, and with placement of dredged material at an approved/permitted upland disposal site furnished by the contractor.

NOTE 4: Bidders are reminded that they must bid on the issued plans and specifications as amended. Any deviations, conditions, or attachments made by the bidders thereto may render the bid non-responsive and be a cause for rejection.

NOTE 5: The apparent low bidder shall submit the documents specified in Section 00800, Paragraph 1A (Contractor Identified Offloading, Processing, and Disposal Site Compliance). If the apparent low bidder does not submit the information required to be submitted within the time specified, the Contractor will be considered non-responsive, and its bid rejected.

NOTE 6: Disposal Site Compliance: The Apparent Low Bidder must demonstrate to the Government **within 70 calendar days** from the date the apparent low bidder is notified of being the low bidder, that the CONTRACTOR's IDENTIFIED site(s) is operational and capable of offloading, processing, and disposing of the dredged material on that date for the estimated quantity as per the bid schedule, is in compliance with the New Jersey Department of Environmental Protection and/or with the State of New York Department of State Coastal Management (CZM) Program Policies or other host state compliance as appropriate for the offloading, processing, and disposal of dredged material.

NOTE 7: Bidders will identify their offloading, processing, and disposal sites with their bid. Bidders will write on the blank lines provided on the Price Schedule the name(s) of the site(s), POC(s), address(es), and phone(s) of their site(s) included in that line item.

NOTE 8: The Government has 30 days from the date of the receipt by the Contractor of the Notice to Proceed (Basic Work) to exercise the Options (A1, B1, D, E, F, F1, G, G1, H, I, J, K, L, M and N), if they are exercised at all. Even if exercised, the Options listed above may not be exercised in numerical order.

NOTE 9: Note that the 90-day rule may apply to this contract if the sediment testing and permitting are delayed. The "90-day" rule references 29 CFR 1.6 (c)(3)(iv) as set forth in FAR 22.404-6(b)(6) provides that if a contract to which a general wage determination has been applied is not awarded within 90 days after bid opening, any modification to that wage determination published prior to the contract award shall be effective unless the agency obtains an extension of this 90-day period from the Administrator, US Department of Labor.

(End of Summary of Changes)
